

GRAD starter

A dynamic platform designed to help graduate students and postdocs develop and launch new ideas that enhance the graduate and postdoctoral intellectual community at Rice University.

Projects should be:

- Innovative
- Promote academic achievement
- Build intellectual community
- Engage graduate students and postdocs in your program and beyond!

The Rice community will view projects, provide feedback, and indicate support for projects they want launched.

GPS and other Rice entities will review the projects and fund initiatives that align with their missions.

Projects for Fall funding are due June 15th
